Steak	1000	200	40	3
Ham	500	150	30	2
Drumstick	300	100	25	2
Sausage	200	75	20	
Eggs	200	75	20	
Butter	100	50	15	
Cheese	100	50	15	
Bacon	50	25	10	
Mayonnaise	50	25	10	
Scale (scatter)	100	25	5	

Rules

All wins, except the scale, must be left aligned.

The Atkins symbol is wild and may substitute for any symbol, except the scale.

The scale is a scatter pay symbol, and pays regardless of where it appears on the screen. Scatter pay wins will be based on the total amount bet.

In addition to the scatter pay wins in the pay table, if the player gets three or more scatters he will win 10 free games. All wins in free games will be tripled. Free games may earn more free games, infinitely.

Game Operation

1. Choose 5 random integers from 1 to 32, one for each reel. Map each number to the corresponding symbol in the reel strips. This will correspond to the middle symbol on each column. The symbols above and below on the screen will be the symbols above and below the assigned middle symbol on the reel strips.
2. Score the result.
3. Pay the player.

Example

The random numbers chosen are 22,15,15,13,29

The screen will look like this:

Expected Free Spins

Free spins can earn more free spins, infinitely.

Let x = number of free spins propagated as a result of 1 free spin.

$$x = 1 + 0.011185 * 10x$$

$$x = 1 + 0.11185x$$

$$0.888152x = 1$$

$$x = 1/0.888152$$

$$x = 1.125934$$

$$10x = 11.259335$$
